Sisters and Brothers:

The Table Officers met with members of the National Office on Tuesday, November 28th to hear their questions and concerns.

We heard some common concerns from members.

- Communication to be effective, stable and consistent
- Effective and solid representation
- Better process for National voices to be heard
- Table Officer presence at National

We have taken these concerns and are working on a plan to move forward and to effectively improve on them.

This will be a positive step in building strength and solidarity at National Office, and within our membership across the country.

In Solidarity,

Karen Carle
President
