

TAKE ACTION

COPE Ontario's Young Workers' Alliance is preparing to bring together the strength of young workers. We are looking for individuals who are 30 years old and under, who want to face the issues affecting us.

To get started, the Young Workers' Alliance needs to identify the following:

Who Are We? What Issues Do We Face? How Do We Tackle Them?

By identifying as a Young Worker, and sharing your experiences, COPE Ontario's Young Workers' Alliance can put together a plan that incorporates the TRUE issues affecting YOU.

On the right is the link to a short, concise survey for anyone in your workplace 30 years and younger to complete. If there is anyone who requires a different format, such as a printed version, please feel free to contact us to accommodate you.

Thank you for the time, and being a part of engaging Young Workers!
