

Lindsay Mills

For

COPE 491

National Vice-President

My name is Lindsay Mills and I have been a COPE491 member, previously OPEIU, since 2001 when I began my career as a temporary employee with the Canadian Union of Public Employees.

I am fortunate to have two handsome young men who call me mom. I am so proud of both Caleb (17) and Jackson (8). Jackson seems to be following in my footsteps as he has attended many conferences, conventions and union schools by my side, just like I did with my dad.

I have had the opportunity to hold numerous offices within our local as well as a variety of assignments within CUPE. These experiences have given me knowledge which I believe is key for the National Vice-President of COPE491, including in-depth understanding of both bylaw and collective agreement language, specifically ours, and the ability to communicate with members no matter where they work or live.

I am proud to be an open and honest communicator and I believe that communication is key, especially when working with a team such as the COPE491 Executive and our members. To me communication is more than just speaking, though I do like to talk especially when I am passionate about the topic, it is also listening and hearing what each other have to say.
